

CENTRAL INTELLIGENCE AGENCY

Memorandum of Conversation

DATE: 13 February 1959

SUBJECT : Telephone Conversation re
Cornerstone Ceremony

PARTICIPANTS: DD/S
Chief, BPS

COPIES TO : BPS

1. The DD/S stated that he felt all points were covered in the paper prepared in the Office of Logistics and the papers had been discussed with the DCI with the following comments:

a. The suggested date of September 19, 1959 ("Anniversary of Agency") was not believed to be the most desirable since the President would probably be away during a part of September and the Anniversary date was not of significant importance. The DCI suggested a date early in the summer or during the month of October. Since the early summer date would undoubtedly result in insufficient progress at the site, the DCI has agreed to the October date for the cornerstone ceremony.

2. The DD/S stated that the staff study-type paper which he had would not be acted upon at this time (the paper will be held in the DD/S office) since he believed that final arrangements could be started in approximately June in order to meet the October date. He did suggest however, that the Liaison Officers be informed of the October ceremony and any suggestions which they may furnish regarding material to be placed back of the cornerstone might be made over the period of the next several weeks. The DD/S will in June designate "working committees" to follow through on the several phases included in the staff paper.
